DETAILED ACTION

MPEP section 711.03(a): Withdrawal of Notice of Abandonment

While the primary examiner has no authority to act upon an application in which no action by applicant was taken during the period for response, he or she may reverse his or her holding as to whether or not an amendment received during such period was responsive and act on a case of such character which he or she has previously held abandoned. This is not a revival of an abandoned application but merely a holding that the case was never abandoned. Accordingly, examiner hereby withdraws the holding of abandonment presented on paper number 27.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 189-201 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 to 51 of U.S. Patent No. **6,001,080**. Although the conflicting claims are not identical, they are not patentably distinct from each other because the term "**limiting means**" in U.S. Patent

Art Unit: 3763

No. 6,001,080 is considered to be equivalent to the limiting apparatus limitation disclosed in part (b) of claim 1 of this application.

Allowable Subject Matter

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) **may be used to overcome an actual or provisional rejection** based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
